

OSCAR university applications platform

The OSCAR platform provides an intuitive, step-by-step framework for planning, writing, and coordinating outstanding UCAS personal statements and teacher references.

OSCAR is available completely free of charge to all UK state schools.

The OSCAR difference

At OSCAR's core is our rigorous research into what admissions staff are really looking for in university applications. Its clear guidance empowers students to analyse and present their skills, knowledge and experiences in the most effective way and facilitates the coordination of references across a cohort. OSCAR provides:

- ✔ A clear personal statement structure for students to refer to and follow.
- ✔ Sources of suggested further reading that allow all applicants to undertake course-related independent research and showcase their academic potential.
- ✔ A reference tool that allows for the creation and coordination of consistent, outstanding teacher references.
- ✔ Interactive modules that give guidance on post-18 next steps.

of last year's OSCAR student users sampled felt it helped them write a better personal statement

"With OSCAR, our references are a million times better. The platform has significantly up-skilled our staff!"

Katie Sanders-Pope, Director of Sixth Form, Mildenhall College Academy

How to get OSCAR

To register for the platform, simply send an email to info@causeway.education with the name and email address of the staff member you would like to designate as the lead teacher on OSCAR. They will then receive clear, step-by-step user guides for staff and students, alongside instructions for onboarding them.

For progression not determined by privilege
